NUMBER 213

THANKSGIVING PROCLAMATION

BY THE GOVERNOR.

During the past year, Wisconsin has been favored with bountiful harvests, our industry, increased and our resources have developed. Prosperity has rewarded every commendable effort made for our advancement, and good health has prevailed throughout the state. In accordance with the time-honored custom which annually sets apart a day for rendering thanks to Almighty God for the dispensation of His kind Providence, and for the peace and happiness He has vouchsafed our people, and in conformity with the proclamation of the president of the United States, I, Jeremiah H. Bush, Governor of the state of Wisconsin, do designate **Thursday, November 26th** instant, as a day of Thanksgiving and praise, and recommend that all public and private business be suspended on that day, and that the people be urged to give thanks to the Supreme Ruler for the many blessings they have enjoyed.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the state of Wisconsin to be affixed.

Done at the city of Madison, (Great Seal) this 11th day of November, in the year of our Lord one thousand eight hundred and eighty-five.

J. M. RUSK,
Governor of the State of Wisconsin.

The Harper's Weekly and other independent papers have a queer way of supporting President Cleveland. They mention Cleveland what food thinks he does, keeping all his shortcomings in the background, while in President Arthur's case they chiroloped the few errors he made, but did not give him credit for the many good things he did. This is ungrateful consistency.

Congressman Joe Rankin is still holding to life by a very slender thread, and declares he will go to Washington to be present at the opening of congress and take the oath that in the event of his death, which may occur at any time, his wife can draw \$10,000, the amount of his congressional salary for two years. No one will hardly blame Mr. Rankin for doing his wife this kindness. Such has been the custom for many years, and in fact principle it is not exactly right, in practice it is fair and honorable, especially when his family is in need of the money. Great caution will be taken in conveying him to the national capital, and the hope is expressed by those in Wisconsin that he will not only live to be sworn in, but that his life will be lengthened for years to come.

Thousands of people in Wisconsin will desire to learn that the wife of ex-Senator August Cameron is hopelessly insane. She has been out of health for some time, but she has to the spine caused by a fall on a Brooklyn ferry boat last spring, brought on a long and painful illness, which has resulted in the dethronement of her reason. It has been repeatedly denied that Mrs. Cameron was insane, but a Washington dispatch which has behind it good authority, says that private letters and telegrams from LaCrosse say that he is hopelessly insane. Mrs. Cameron has been for years one of the attractive women in Washington society. She is an exceedingly beautiful woman, highly cultivated, kindly in spirit, generous in her charities, and grand in her womanhood, and her misfortune will be deeply deplored. The last reception she gave in Washington was last spring, and it was no unimportant event in Washington society, for it was one of the most notable gatherings seen in Washington for a long time.

Chicago elevators, as per official returns, contain 18,278,615 bushels of wheat, 469,748 bushels of corn, 212,317 bushels of oats, 272,837 bushels of rye and barley, making a grand total of 14,378,510 bushels, against 14,767,086 bushels a week ago and 9,229,524 bushels at this period last year.

Mill-walks warehouses are stored with 2,988,311 bushels of wheat, 1,674 bushels of corn, 7,489 bushels of rye and 23,784 bushels of barley.

New York and Brooklyn warehouses are stored with 9,728,343 bushels of wheat, 239,670 bushels of corn, 1,721,292 bushels of oats, 117,979 bushels of rye, and 72,904 bushels of barley.

Exports from seaboard ports last week included 131,100 barrels of flour, 540,400 bushels of wheat, 789,900 bushels of corn, 421,200 bushels of oats, 3,650 barrels of pork, 7,660 pounds of lard and \$888,000 pounds of bacon.

Visible supply of grain in the United States and Canada, Wheat 52,143,586 bushels, corn 3,910,217 bushels, rye 306,394 bushels, barley 1,923,621 bushels. As compared with the visible supply a week ago there is an increase of 441,631 bushels of wheat, and 45,224 bushels of rye, but a decrease of 754,120 bushels of corn, 536,363 bushels of oats and 4,678 bushels of barley.—Chicago Journal, 10th.

There have been prepared at Washington some very interesting statistics of casualties among the union soldiers during the late war of the rebellion. Regarding all the enlistments to a three-year standing, there were nearly 2,500,000 soldiers in two fields, or to be precise in figures, 2,320,272. Of this number Wisconsin furnished 79,563, and lost by disease and fatalities in battle, 12,301. The average age percent of loss according to the statistics of the war department, was 15.49, or about 15% men to each 100 who took the field. The colored troops suffered more severely than the white, as the records show that nearly one half, or 40 per cent, were either killed in battle or died of disease. Some of the states lost much heavier than others in proportion to the number of troops sent to the field. Iowa lost nearly twice as many as New Jersey, and the states that suffered much greater than the average were Illinois, Indiana, Iowa, Michigan and Wisconsin. This state had over 8,000 killed outright in battle, among which were 103 officers; and 7,963 men died of disease. The general average killed on the field was nearly three out of every hundred, but in individual battles, the

THE LOST ALGOMA.

STARTLING SUSPICION THAT HALF HAS NOT BEEN TOLD.

Forty-Six Persons Known to Have Gone Down to Death, and a Rumor That the Number Is One Hundred.

Port Arthur, Ont., Nov. 11.—A dispatch from Owen Sound states that the Canadian Pacific officials have almost a complete monopoly of the particulars of the Algonquin disaster. The company's agents are very reluctant in revealing the facts. It is believed, however, that in addition to the steamer's crew, as booked here, she took on a large number of passengers at South St. Marie. Mr. Beatty, general manager of the line, would say nothing definite as to the number lost. Other officials say that fully 100 have gone down with the vessel.

LONGS FOR HER LITTLE ONE.

A Half-Dozen Mothers Consents to the Fate of Their Babies.—The following is a list of the Algonquin passengers and crew, so far as given out by the officials. The lost ones are in parentheses. The first Mrs. Mary Crogan, a middle-aged nurse, called upon Mrs. Thompson and proposed to her that she give the baby to her. Mrs. Thompson, who has a child of the same age, was told to say, should any one ask that the child was dead. The child was taken away that night. Since then the mother has not seen it, and has longed for her little one, and constantly repeats herself for her part in the strange transaction.

The case has been placed in a lawyer's hands. This gentleman was very reluctant to divulge the progress he has made in ferreting out the mystery. Yet he was free to denounce what he termed child-stealing. He gave it as his opinion that the parties who had the child were of high social standing and belonged in New York City. The mother, who was told to say, should any one ask that the child was dead, it is thought, was a relative of all claim to the child. For this he was paid \$50. The child has been properly returned to the office of the register of vital statistics, but at the protest court the papers necessary to the adoption of such a child had neither been issued nor asked for. Mrs. Crogan, a nurse who negotiated the purchase of the child, refused to talk, save to say that she has done nothing illegal.

No Looking for a Telegraph Note Van. New York, Nov. 11.—The report was current on Wall street Tuesday that the Western Union Telegraph company was making preparations for an onslaught on the Bell Telephone & Cable Co. It was stated that the former company would soon announce a 5 cent rate to all points between Boston, Philadelphia, Washington and Baltimore. President Green of the Western Union, said that there were no present indications of a war. As far as he was concerned he had no intention of making an attack upon the rival company. Mr. W. S. Sawyer, general agent for the Western Union, said in substance: "I think that the talk about a telegraph war originated in Wall street. There is plenty of business for both our company and the Bell Telephone & Cable Co. and this is not the time to cut rates or inaugurate a war. The dull season is at an end." At the office of the Baltimore & Ohio company, President Bates and the board of managers had before them an offensive movement was being planned by the Western Union. They did not anticipate a war of rates.

Ohio Democrats Go to the Supreme Court. COLUMBUS, Ohio, Nov. 11.—Tuesday afternoon the petition for a writ of mandamus compelling Daniel J. Dalton, clerk of the courts of Hamilton county, to "issue certificates of election to the newly elected senators of Hamilton county," was presented to the supreme court. The court took the matter under consideration, and before adjourning determined to allow the filing of the petition and order the notice to George K. Nash of the fact. Messrs. McDougall and Nash will represent the real defendants in the case. The Republican candidate for the election for the year 1885, is the subject of the petition. The court is now arguing the question is that on Thursday the time allowed the clerk to issue the certificates—one month—ends, and if anything at all is to be done it must be done quickly.

Want to Do All the Riding Themselves. NEW YORK, Nov. 11.—The charter for the new street railway, which has the privilege of laying tracks asked of the city council. Some twenty-five New York and Boston millionaires, whose real estate here is valued at more than \$7,000,000, have signed a protest against the railway, which they believe will be detrimental to the best interests of the city. Many of them threaten to sell out and move. The newspapers and most of the business firms of the city are in a view of "submitting the question to the voters at large. Some of the cottagers have already notified business men on certain thoroughfares that if the railway is laid they will not drive over those streets, and therefore the stops will lose their trade.

Kiel Will Stand Without Doubt. MONTREAL, Nov. 11.—It is said, on the authority of a member of the cabinet, that the Kiel question was settled at a meeting of the council Monday evening, at which all the ministers were present. Mr. White, secretary of the interior, who is in the northwest, was present. The report from Nov. 10 to Nov. 16 was given, not out of any respect for Thanksgiving Day, but merely to give time for the official order commanding the sheriff of the northwest to proceed with the execution to ranch Regina. Next Monday Kiel will hang without doubt.

Resolution in the Tennessee Valley. CHATTANOOGA, Tenn., Nov. 11.—The extraordinary fire of thirty feet on the Tennessee river at this point, in forty-eight hours, caused by "unprecedented rains" last week, has spread devastation in the valley drained by the stream. The winter fire never before occurred until Christmas, and the farmers were totally unprepared. Corn was in the shock in all of the bottom lands. Many thousands of acres of these bottom farms have been inundated, and tens of thousands of bushels of corn are totally ruined.

Justified in Killing Her Stepfather. CHICAGO, Nov. 11.—The inquest was held Tuesday on the body of Vance Wilson, colored man, who was stabbed Saturday night by his stepfather, Annie Thompson. The girl was defending her mother and herself from violence at the hands of her stepfather, and the jury believed that the cutting was done under great mental strain and fear, and therefore exonerated Annie Thompson from all blame.

Conference of Baptists. NEW YORK, Nov. 11.—The annual conference of the Baptists for the discussion of current questions began Tuesday at the Calvary Baptist church, in Fifty-eighth street, near Sixth Avenue. This is the fourth meeting. About 150 representatives of Baptist churches from all parts of the country are present, and many are expected. The Indian and Mormon questions were discussed.

Prentice & Evenson said it known that they guarantee Acker's Dyspepsia. Tablets to be the best remedy for indigestion ever made, they always relieve headache
